

# Reset Option

Allows the user to reset the persistent state of the grid. Users can use the reset option by right-clicking the grid heading. Once clicked, it clears the state, it restores the column order and widths, clears filters, and resets the sort order.

This feature is available starting with Profound UI 5.7.0.

**Promptable?** DROPDOWN

**Possible Values:** true, false

**Bindable?** YES

**Products:** ProfoundUI
